

PUBLIC NOTICE

COVID-19 UPDATE

Please be advised that due to the fact that we regularly treat elderly, immunocompromised, and young children we have always maintained a sanitized and safe clinic environment. Because of the flu/cold season as well as COVID-19, we will continue to provide our patients the safest environment possible. Please note that we sanitize our pens, clipboards, door knobs, and surfaces several times throughout the day.

If you are interested in telehealth services please let your therapist know and we can try to accommodate that request.

Get in touch with us today!
